*DAS = Disease Activity Score; DAS28 = Disease Activity Score with 28 joint counts; SDAI = Simplified Disease Activity Index; CDAI = Clinical Disease Activity Index; PAS = Patient Activity Score; RAPID = Routine Assessment of Patient Index Data; RAPID4PTJC = Routine Assessment of Patient Index Data with patient derived joint counts; RAPID4MDJC = Routine Assessment of Patient Index Data with provider derived joint counts; RADAI-5 = Rheumatoid Arthritis Disease Activity Index-5; CASI = Chronic Arthritis Systemic Index; PtGA = Patient Global Assessment of Disease Activity Visual Analog Scale; PrGA= Provider Global Assessment of Disease Activity Visual Analog Scale.

†While remission criteria for PtGA and PrGA have been proposed, additional levels of disease activity are not defined.
