

OntarioMD & Ontario Health Teams

Partners in Accelerating Digital Health for Connected Care

OntarioMD (OMD) supports Ontario Health Teams (OHTs) by preparing and educating clinicians on using digital health tools to enhance the coordination and delivery of care in their communities. With over 20 years of experience in guiding all practice types toward achieving their digital health goals, our strategy includes these FREE services for clinicians and clinic staff:

Enhancing Healthcare with Digital Tools

Health Report Manager (HRM)

Enables practices to receive patient reports (ex: discharge summaries) electronically from hospitals and other health care facilities directly into their Electronic Medical Records (EMRs).

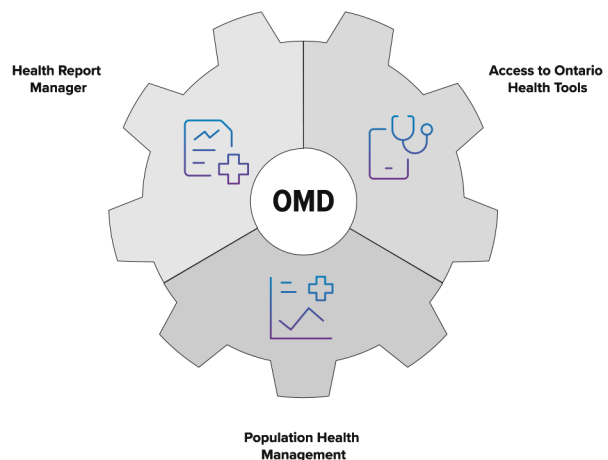

Access to Ontario Health Tools

Connects clinicians, through OMD Advisors, to AI scribes, lab results, dispensed drug information, eConsults, eForms, Cancer Care Ontario Screening Activity Reports, ClinicalConnect, and more.

Population Health Management

Provides toolkits with real-time data insights to proactively manage patient care and improve health outcomes. (Available for Accuro®, OSCAR and TELUS EMRs only)

The views expressed in this publication are the views of OntarioMD and do not necessarily reflect those of the Province.

OntarioMD is a wholly owned subsidiary of the Ontario Medical Association and funded by the Ministry of Health.

EMR Optimization and Certification

OMD helps with adopting and optimizing the use of EMRs, ensuring they evolve with our healthcare system. By certifying EMRs, integration with Ontario digital health tools is facilitated, enhancing interoperability and data-sharing across the health system, and ensuring compliance with provincial privacy and security requirements.

OMD Digital Transformation Support

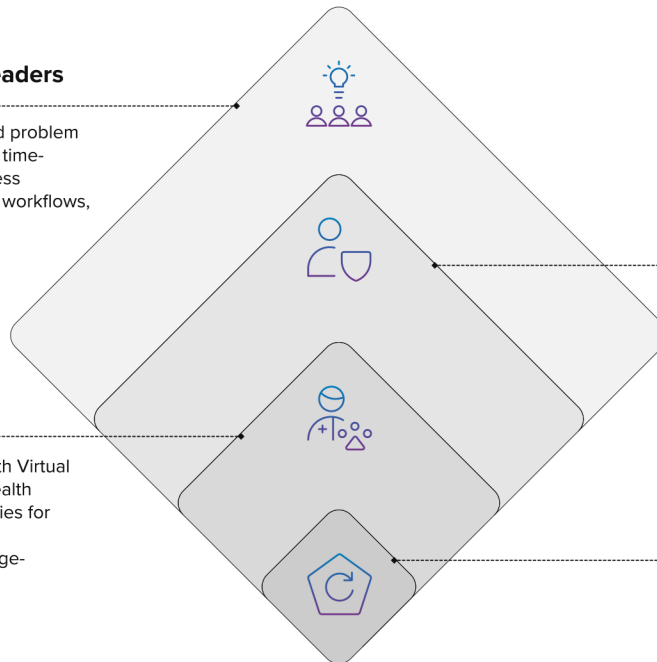

To minimize digital transformation challenges, OMD offers comprehensive change management support and training to implement and use digital tools.

OMD Advisors and Peer Leaders

Seasoned digital health coaches and problem solvers with experience in providing time-saving solutions and advice to address clinicians' challenges, opportunities, workflows, and other issues.

OMD Educates Webinars and Conferences

Online sessions, annual Digital Health Virtual Symposium and in-person Digital Health Conference with learning opportunities for digital health optimization, emerging technologies, and practical knowledge-sharing by peers, experts and OMD Advisors.

Privacy and Security Training

Accredited online modules to ensure regulatory compliance and building digital health confidence among clinicians and clinic staff.
