cSWO
CONNECTING SOUTH WEST ONTARIO

Health Report Manager (HRM) **&** cSWO Regional Clinical Viewer

HEALTH REPORT MANAGER (HRM)

ClinicalConnect™

How they complement each other

HRM and **ClinicalConnect** are two ehealth tools that offer health care providers different ways to access electronic health information.
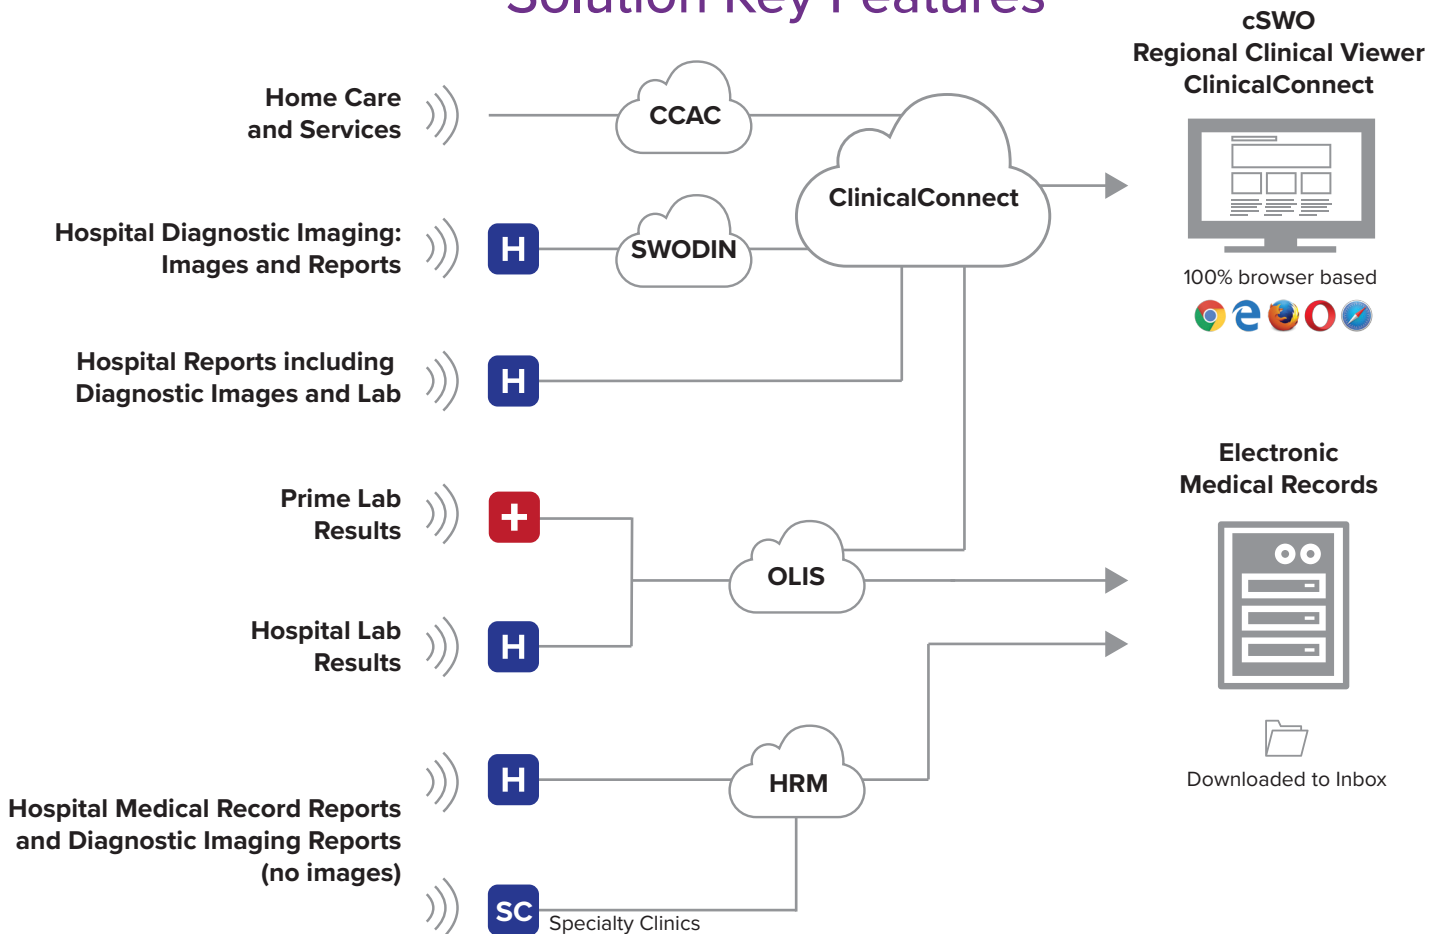

HRM
is an Ontario-wide solution that **delivers** clinical reports into clinicians' certified electronic medical records (EMRs).

ClinicalConnect
is a secure web-based portal or **viewer** solution, providing real-time access to patient information from across south west Ontario (SWO).

These individual ehealth tools allow users to receive (**HRM**) critical information in an easy-to-use format or to access (**ClinicalConnect**), and together provide a more complete patient view.

Electronic Health Record (EHR) Solution Key Features

cSWO Regional Clinical Viewer ClinicalConnect

100% browser based
