OntarioMD

OntarioMD (OMD) offers these 10 free services to support primary care clinicians, and their staff leverage technology to better run their practices.

20+ Years of Digital Health Knowledge. OMD does more than certify EMRs. We identify and address your technological pain points, train you and clinic staff, suggest efficiency tips, and ensure you're heard.

OMD Advisory Service. The team can help you choose the technology that's right for you, manage changes, and optimize technology use.

AI Expertise for Primary Care. Our insights from leading the first-ever provincial AI scribe evaluation project can guide you in choosing an AI scribe tool.

Certified EMRs for a Secure Gateway to Patient Data. Only OMD-certified EMRs meet Ontario Health requirements, connecting to dispensed drug info (Digital Health Drug Repository), hospital reports (Heath Report Manager®), lab results (Ontario Laboratories Information System), specialist advice (eConsult), and forms pre-populated with patient data (eForms) – without leaving your EMR for electronic submission. More apps are coming!

Privacy & Security Awareness and Education Credits. Protect your practice from cyberthreats by knowing the latest privacy and cybersecurity developments and best practices with our online training.

OntarioMD is a wholly owned subsidiary of the Ontario Medical Association and is funded by the Province of Ontario.

Online Digital Health Training and Education. Browse our knowledge repository of webinars, videos and other resources on OMDEducates.com.

Networking Opportunities. Attend our one-of-a-kind OMD Educates: Digital Health Conference to mingle with colleagues and learn tips on using your EMR, AI, and other technologies.

Quality Improvement. Have the OMD Advisory Service Team assess your practice to pinpoint challenges and recommend improvements (that can be used for CPSO and other quality improvement projects).

Peer Leaders. Consult with one of our 50+ physicians, nurses or clinic executives for digital health mentorship.

Facilitated Access to Digital Health Services and Information. We can help you get secure access to multiple digital health services by signing up for Digital Health Credentials/ONE® ID username and password with Ontario Health.
