Files in the Toolkit

OMD EMR-eReport Patient Vaccination Reconciliation Toolkit – Workbook - Accuro

- This is an Excel spreadsheet designed to be used with the COVaxON Rostered Patients Vaccination Summary report to identify patients requiring initial or secondary vaccination doses.

Accuro Query Instructions – Read Me

- Instructions on how to download the “OMD eReport Patient Reconciliation – Patient List” Query from Accuro Definition Publisher.

Exporting Rostered Patients Vaccination Summary Report (formerly Practice Level COVID-19 Vaccination Report) from Ontario Health eReport Portal

1. Login at Ontario Health eReport portal with your ONE ID account:
<https://providers.cancercare.on.ca/>
2. Navigate to the Rostered Patients Vaccination Summary Report in the eReport Portal.
3. Click on "Actions" menu.
4. Select "Export" option.
5. **Select "CSV (comma delimited)"** and save to a chosen location. **Note: Exporting in Excel format will not work with the provided Excel workbook due to formatting that is applied to the file.**
6. If you are a delegate and working with multiple clinicians, select Physician (CPSO#: LastName, FirstName) from the Physician Dropdown, click "View Report" and repeat steps 2-4 for all physicians. **Note:** Be sure to identify each Physician or CPSO# in the name of the download file when saving.

Download OMD Query and Export patient list from EMR.

[Download Query from Accuro Definition Publisher](#)

To export your patient list from Accuro please download “**OMD eReport Patient Reconciliation – Patient List**” Query from the Accuro Definition Publisher.

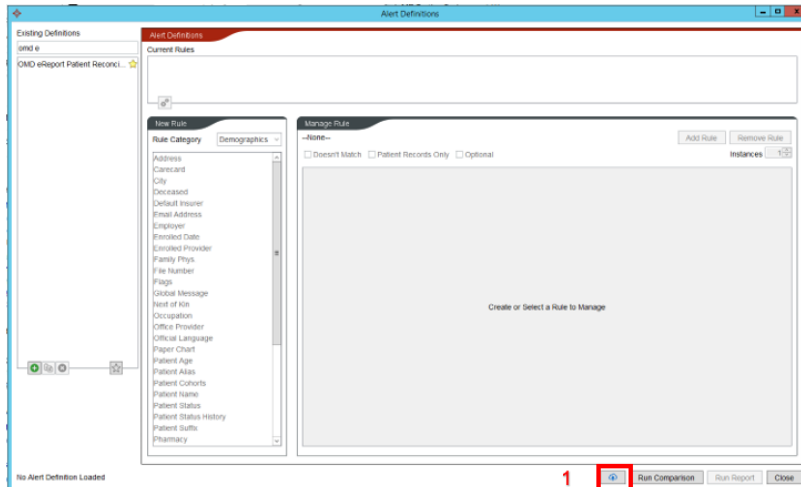

Note, this query looks for patients with a status that starts with "Active". If you have a "custom status field" you may need to change this rule to find active patients.

Alert	Description	Date	Publisher	Keywords
OMD eReport Patient Reconciliation - Patient List	Search for active patient, 12 years and older	2021-Jul-08	nancygunn	eReport, OMD

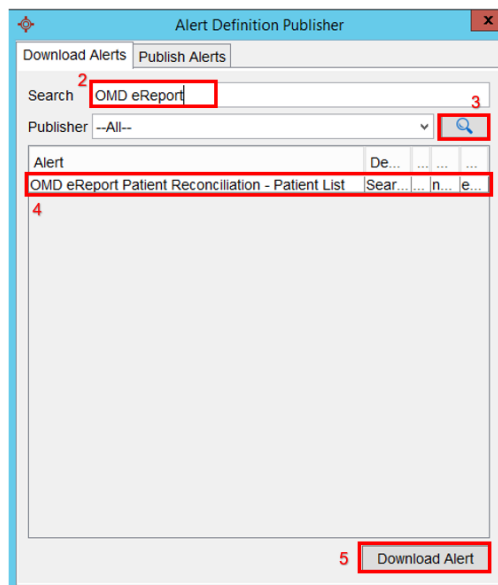

If you are not familiar with the Accuro Definition Publisher, please review the steps below.

To import the query published to the Accuro cloud, you will:

Click the Accuro Bullseye → Reports → Query Builder (Alerts) → Click the cloud icon¹

In the Search field², type in the name of the query you would like to download → click the magnifying glass³ → highlight the query⁴ you wish to download → click on “Download Alert”⁵ → Click ‘OK’ to the ‘Alert downloaded successfully’ message.

Export Patient List from EMR

1. Open Query Builder. (Press Alt. and type query in the search field)
2. Highlight the query you wish to run and click on “Run Report”.
3. Select ‘all patient’ or ‘selected providers’ under the ‘Apply Against’ option. If there are additional columns you wish to display, you may select them under ‘Fields to Display’.
4. Click ‘Run’
5. From the generated report, click ‘Export’, in the Export Result window,

6. Select 'Encrypt', enter, and confirm a password for the file. (It is recommended all files with PHI be encrypted)
7. Click the ellipsis to choose a location to save the file, in the window that opens, click in the 'Look in' field and select a location on your local computer where you wish to save the file, enter a file name, click 'Open'.
8. Click 'Export'. (**Note:** the path to the location where you selected to save the file will now display in the 'Output File' field)

Remember to delete or encrypt any files on your desktop that contain PHI when you finish working with them.

OMD EMR-eReport Patient Reconciliation Workbook

[Legend of Worksheets within the Workbook](#)

Toolkit Instructions

Instructions for downloading the eReport, exporting an EMR Patient List and working with the data in the excel workbook.

eReport Data

Worksheet where Rostered Patients Vaccination Summary eReport data should be pasted.

Patient List Export

Worksheet where Patient List export data should be pasted. Vaccination record matches between the Patient List and the eReport data also displays on this worksheet.

Resources, Tools, Support

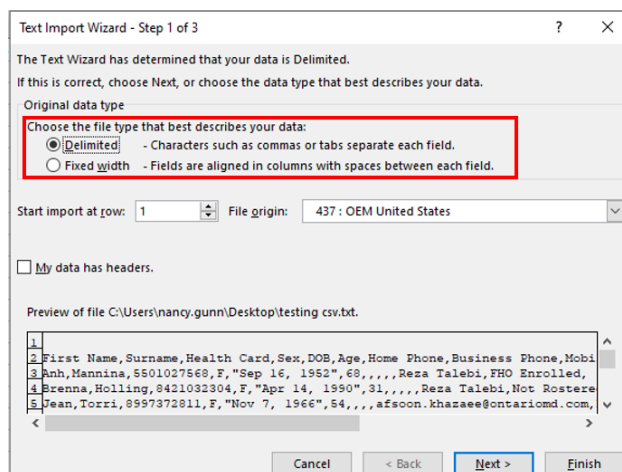

Worksheet with access links to resources regarding communicating with patients, billing, and support.

ONE® ID Information

Worksheet containing information and links regarding ONE® ID Login and Registration.

Working with the Worksheets and Data

1. Open the saved eReport with Excel by launching a blank workbook in Excel.
2. Click File > Open > Browse.
3. In the dialog window that opens, to the right of 'File Name', click the dropdown field and select 'All Files'.
4. Navigate to where the “Rostered Patients Vaccination Summary” eReport CSV file is saved, then single click on the file to select the file.
5. Click Open.
6. A Text Wizard assistant will open to help convert the file to an Excel file.
 - a. In the Text Wizard Step 1 window, ensure ‘Delimited’ is selected and click Next.

Text Import Wizard - Step 1 of 3

The Text Wizard has determined that your data is Delimited.
If this is correct, choose Next, or choose the data type that best describes your data.

Original data type

Choose the file type that best describes your data:

Delimited - Characters such as commas or tabs separate each field.

Fixed width - Fields are aligned in columns with spaces between each field.

Start import at row: 1 File origin: 437 : OEM United States

My data has headers.

Preview of file C:\Users\nancy.gunn\Desktop\testing.csv.txt

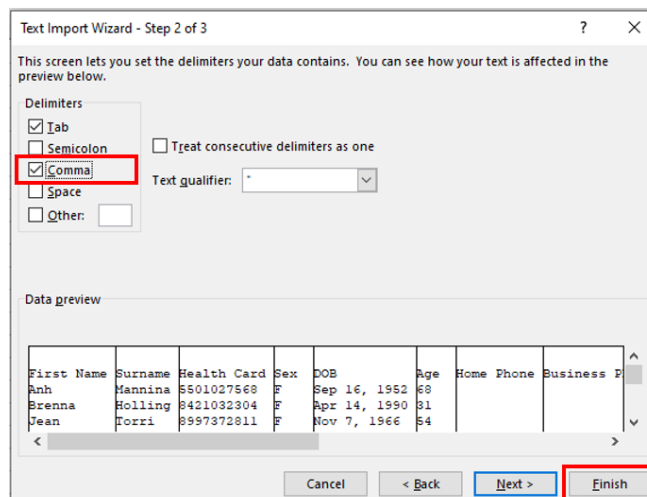

```

1
2 First Name, Surname, Health Card, Sex, DOB, Age, Home Phone, Business Phone, Mobile Phone
3 Anh, Mannina, 5501027568, F, "Sep 16, 1952", 68, , , , , Reza Talebi, FHO Enrolled,
4 Brenna, Holling, 8421032304, F, "Apr 14, 1990", 31, , , , , Reza Talebi, Not Rostere
5 Jean, Torri, 8997372811, F, "Nov 7, 1966", 54, , , , , afsoon.khazae@ontariomd.com,

```

Cancel < Back Next > Finish

- b. In Step 2 ensure the Comma checkbox is selected under ‘Delimiters’ and click Finish.

Text Import Wizard - Step 2 of 3

This screen lets you set the delimiters your data contains. You can see how your text is affected in the preview below.

7. Within the “Rostered Patients Vaccination Summary” eReport CSV file, downloaded from Ontario Health, copy all data, excluding headers, from the eReport. **Copy and Paste fields using "Control C" + "Control V" functionalities. Do not paste as special values or text as the format could change.**
8. Double click the “OMD EMR-eReport Patient Vaccination Reconciliation Toolkit – Workbook” for Accuro and navigate to the eReport Data tab.

9. Paste all copied data into the eReport Data tab.

	A	B	C	D	E	F	G	H	I	J	K	L

7												
8												
9												
10												
11												

Paste eReport Data here.

10. You need to now copy your “Patient List” Data generated from your EMR. The next steps will walk through opening that text/csv file.
11. Click File > Open > Browse.
12. In the dialog window that opens, to the right of 'File Name', click the dropdown field and select 'All Files'.
13. Navigate to where the “Patient List” text file generated from your EMR is saved, then single click on the file to select the file.
14. Click Open.
15. A Text Wizard assistant will open to help convert the file to an Excel file. Follow the same steps as outlined in step 6 (a) and (b) above.
16. Copy all data, excluding headers, from the “Patient List” generated from your EMR and paste into the Patient List Export tab under the GREEN Headers. **Copy and Paste fields using "Control C" + "Control V" functionalities. Do not paste as special values or text as the format could change.**

Patient List Data Extracted from Accuro										Data from eReport Practice Level COVID-19 Vaccination Report						
Last Name	First Name	PHN	DOB	Sex	Home Phone	Task Status	Work Phone	Cell Phone	Email Address	PL Status	MD Last Name	PHN VC removed	eReport Age	Vaccine	Administration Date	Dose
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not
												#VALUE!		Patient is Not Rostered to you in eReport	Patient is Not Roste	Patient is Not

Paste Patient List Data here.

17. Once all data has been inserted, stay on the Patient List Export tab to reconcile your patient list. (You should see eReport data auto-populate on the right side of the spreadsheet once you have pasted the EMR patient data into the Patient List Export tab.)
18. If your patient received a vaccine, the most recent vaccination information will be listed on the right side of the spreadsheet. (Under the YELLOW headers)

19. You will be able to view the specific Vaccine Received, Date Administered and Dose Number.
20. If the patient has received 3 doses, the row will turn blue. If the patient has received 2 doses, the row will turn green. If the patient has received 1 dose, the row will turn yellow. Rows of rostered patients in the eReport without any dosage reported will turn red and display 'Vaccination Record Not Found'. Rows of non-rostered patients will remain white and display 'Patient is Not Rostered to You in eReport'.

Note: Information from the Ontario Health Rostered Patients Vaccination Summary Report contains vaccination information on ONLY those patients rostered to you. If your patient is NOT rostered to you, you will not see any vaccination information for this patient. Non-rostered patients should be contacted directly to gather vaccination information.

21. Use this list to identify patients requiring initial or secondary doses. See the Resources, Tools, Support tab for more resources on communicating with your patients, billing, and support.

Resources, Tools and Support

Support for Patient Outreach

Thank you for helping our patients receive the COVID-19 vaccine, your efforts in reaching out to our patients is valued and will help end the pandemic. As you know many of our patients have been able to schedule their vaccinations. However, there are some patients, around 10-15%, who are likely to accept an offer of vaccination if we reach out to them. There are other patients who may have questions about whether this vaccine is right for them. This is why your role is so important to the vaccination effort as you can help patients who will accept an invitation of vaccination and connect those patients with questions to their family physician who can make a personal recommendation. It is important to note that not all patients are open to receiving the COVID vaccine and that their choice to decline this offer is accepted.

Ontario Health is supporting us with a list of patients who have received the COVID vaccine. Please use the tools provided in the toolkit that OntarioMD has created with them to find your

unvaccinated patients and contact those 12 years and older. Please note some patients may be listed as unvaccinated who have recently received the vaccine.

In addition to local vaccine clinic popups and primary care offices that are offering COVID-19 vaccine, patients can be directed to the Provincial Government booking site <https://covid-19.ontario.ca/book-vaccine/> or pharmacy locations that are offering vaccination <https://covid-19.ontario.ca/vaccine-locations>

For patients who need a telephone number to assist with booking, they can call The Provincial Vaccine Information Line at 1-888-999-6488

Creating Key Messages

Creating a script that is customized for each physician practice is encouraged so that there is an agreement around what the outreach communications will include. The following key messages have been provided as sample messaging.

What patients need to hear	What patients need to know
<ul style="list-style-type: none"> • Vaccinating for COVID-19 is a personal choice. • Being unsure about the decision to vaccinate is normal and that the family physician and team are here to help you. • The family physician and team are a trusted source of information. • The family physician and team have been educating themselves on the COVID-19 vaccine. • The family physician and team are specialists in you. They know your history, family, circumstances and are able to make recommendations for you about COVID vaccine. 	<ul style="list-style-type: none"> • They are eligible for the first dose of the COVID vaccine. • If they are ready to vaccinate, booking an appointment is through: The provincial booking website, through a participating pharmacy, or (in some cases) through a family physician office. • If they have questions about the vaccine that may be able to answer common questions about the vaccine. • If they have concerns or would like the physician to help them make a decision about the vaccine, an appointment can be booked.

Common questions patients may ask.

It is helpful to review the list of common questions before outreaching to patients to prepare yourself to respond. The Centre for Effective Practice [website](#) maintains a list of frequently asked questions and these are updated regularly. It is important to remember that if you are not sure about a response to a patient question that it is ok to say you don't know that answer and either follow up later or suggest having this discussion with their family physician.

Documenting the Interaction

Recording the response to the patient outreach (telephone call) is an important step so the family physician and other team members can support any follow up conversations. Each clinic

may have a different process for documenting the outreach and many will use their Electronic Medical Record to do so. **It is recommended that, at a minimum, the status of the conversation is recorded in a standardized manner.**

- **COVID Vaccine Outreach Declined** – means that the patient has declined to receive the vaccine and declined to talk to the family physician about the decision.
- **COVID Vaccine Outreach Accepted** – means the patient has accepted the offer to be vaccinated and is booking an appointment.
- **COVID Vaccine Outreach Hesitant** – means the patient has declined to receive the vaccine but has accepted an appointment to speak to the physician about concerns.
- **COVID Vaccine Outreach Incomplete** – means that the outreach occurred but resulted in voicemail or unanswered phone.

Sample Scripts

The following sample script has been created using the above key messages and may be used or adapted.

Voicemail

Hi, this is <name> calling for <Patient name>. I am calling from Dr. <name> office. Dr. <name> thinks the COVID vaccination is important for your health has asked me to reach out to you to offer any assistance in helping you get your COVID vaccination. You are eligible for your vaccination now and you can book through the Provincial Government booking site, a local clinic or a local pharmacy. If you have any questions about whether this vaccine is right for you, please call our office at <### ### ####> and we can schedule a telephone call with Dr. <name>. If you have already received or scheduled your vaccination, there is no need to call us back. Have a good day.

If the Telephone answered

Hi, this is <name> calling may I speak to <Patient name>. I am calling from Dr. <name> office. Dr. <name> thinks the COVID vaccination is important for your health has asked me to reach out to you to offer any assistance in helping you get your COVID vaccination. Do you have a few minutes to talk about this?

If there is a Negative Response

That is fine. Dr. <name> just wanted you to know that you are eligible for the vaccine and that if you had any questions about whether the vaccine was right for you that we could schedule an appointment to discuss. Please feel free to call us if you need any support.

If there is a Positive Response

That is great, we have been thinking a lot about the vaccine and its importance in protecting our patients. Do you have any questions about the vaccine that I can help you with?

<[Respond to questions about how to book an appointment](#); [address any mis-information](#); schedule appointment with physician for specific recommendation>

<Record outcome of call in the EMR – Left a message, First/Second dose completed, First/Second dose booked, Declines offer, follow up appointment booked or unable to contact>

Resources, Tools and Support for Building Vaccine Confidence

1. COVID-19 vaccination in Canada: an educational series for primary care professionals (Ontario College of Family Physicians & Dept of Family & Community Medicine) - Eligible for Mainpro+® credits.

<https://www.dfc.utoronto.ca/covid19-vaccination-modules>

Learn How to:

- Communicate how the approved vaccines work, their safety and efficacy, and who should receive them.
- Counsel special populations on the benefits and risks of the vaccine.
- Employ evidence-informed strategies to build vaccine confidence among patients and address common concerns.

2. Primary Care COVID-19 Immunization Toolkit - Developed through the [University of British Columbia's Primary Care Innovation Support Unit](#) and supported by College of Family Physicians of Canada, Centre for Effective Practice and 19tozero.ca

<https://covidtoolkit.ca>

Learn How to:

- Engage Vaccine Hesitant Patients
- Plan a vaccine clinic for your office, should you choose to do so.

3. Centre for Effective Practice COVID-19 Vaccination Micro-site

<https://tools.cep.health/tool/covid-19-vaccines/>

- [Vaccines at a glance](#)
- [Patient resources \(including Multilingual information, newsletter and social media content\)](#)
- [Ensuring patient confidence in vaccines > COVID-19 vaccines for children](#)
- [Emerging evidence: COVID-19 vaccines for children](#)

4. Vaccine Hesitancy Guide – Developed by the University of Calgary's School of Public Policy

<https://www.vhguide.ca>

Learn How to:

- Have better clinical conversations about vaccines.
- Differentiate common types of vaccine hesitancy that primary care clinicians may see.
- Browse through these types to help identify the sources of your patients' hesitancy and find advice and resources on how to address them.

5. Ontario Medical Association Webinar on Vaccine Confidence Slaying the Myths and Spreading the Facts

<https://www.youtube.com/watch?v=rBldXEEZH9Q>

ONE® ID Login and Registration

- **What is ONE® ID and why is Ontario Health eReport COVaxON report using ONE® ID?**

ONE® ID is Ontario’s digital identity and access management service with robust systems and processes that allow health care providers to securely access electronic health care applications using a single electronic credential. ONE® ID’s identity validation process and security safeguards ensure that only authorized professionals can gain access to Personal Health Information (PHI). Upon authorization, your ONE® ID credentials can help you gain access to a growing variety of other provincial data sources and reports including ConnectingOntario, ClinicalViewer, cSWO ClinicalConnect, Ontario Telemedicine Network (OTN), Ontario Lab Information System (OLIS), and Panorama.

- **How do I sign up for ONE® ID?**

For College of Physicians and Surgeons of Ontario (CPSO) members, the primary method to obtain a new ONE® ID account is by logging in through the CPSO Portal. If you do not yet have a ONE® ID account, log in to the CPSO Members Portal to self-register for a ONE® ID account here: <https://my.cpso.on.ca/>.

For instructions on completing your ONE® ID self-registration, refer to the [ONE® ID CPSO Registration Guide](#).

- **I forgot my ONE® ID Login ID. What should I do?**

If you have lost or forgotten your ONE® ID Login ID, you can follow these steps:

1. Go to the ONE® ID login page: <https://oneid.ehealthontario.ca/login>.
2. Select the "Forgot Login ID" link.
3. Enter your first name, last name, and date of birth.
4. Next, you will be prompted to verify your identity by answering 2 of 3 online challenge questions selected during your registration. **Note:** Answers are case-sensitive.
5. Your Login ID will be displayed. Click “Proceed to Login” to log in to your account.
Note: If you require further assistance with accessing your ONE® ID account, please call the Ontario Health Digital Support Desk at 1-866-250-1554 or email OH-DS_servicedesk@ontariohealth.ca for assistance.

- **I forgot my password or it is expired. How do I reset my password?**

If you have lost or forgotten your temporary password, or it has expired, you can follow these steps:

1. Go to the ONE® ID login page: <https://oneid.ehealthontario.ca/login>.
 2. Select the "Forgot Password" link.
 3. Enter your Login ID (e.g., <mailto:firstname.lastname@oneid.ca>) and date of birth.
 4. Next, you will be prompted to verify your identity by answering 2 of 3 online challenge questions selected during your registration. **Note:** Answers are case-sensitive.
 5. Create a new password.
- Note:** If you require further assistance with accessing your ONE® ID account, please call the Ontario Health Digital Support Desk at 1-866-250-1554 or email OH-DS_servicedesk@ontariohealth.ca for assistance.

- **How do I update my ONE® ID profile?**

To maintain your ONE® ID account and keep your information current, you can login to <https://oneid.ehealthontario.ca> to access your My Profile page and update your information.

In the top panel of the My Profile page, your Preferred and Legal First and Last Names are displayed, along with your ONE® ID Login ID, Gender and Date of Birth. These fields cannot be modified by you. If any of the information is incorrect or requires updating, please contact your Local Registration Authority (LRA) or the Ontario Health Digital Support Desk.

You can, however, change your own contact email address, phone number and preferred language, at any time.

Authorizing a Delegate

- **What is a delegate and what are the advantages of authorizing a delegate?**

A delegate is a member of your primary care team (e.g., a nurse, office manager or clinic staff member) who is authorized to access your COVaxON Report. A delegate is set up with their own unique ONE®ID account and is given permission from a physician to download and view the report. By authorizing delegates, the tasks involved can be shared among team members.

- **As a physician, how can I authorize a clinical staff member or office administrator to access my COVaxON Report?**

Delegates must first be registered with Ontario Health by sending an email to ONEIDBusinessSupport@ehealthontario.on.ca. Registration appointments will be scheduled based on location and/or the date of your request.

To appoint a delegate, visit eHealth Ontario, log in, select "Manage your delegates" located at the bottom of the screen, and then search for the delegate's account by their login ID. For more assistance, please see the video on 'Appointing a Delegate in ONE® ID' located under the 'Support Videos and Info' tab.

The COVaxON Report includes patient personal health information. As a health information custodian, you have an obligation under the privacy law to protect that information from unauthorized collection, use and disclosure. This includes ensuring timely revocation of access to the report by people who should no longer be your delegates (e.g., they no longer work in your office).
