

PEER LEADERS

OntarioMD has worked with thousands of physicians across Ontario to help them enhance their use of a provincially-certified electronic medical record (EMR) to improve patient care. It also monitors certified EMRs on behalf of physicians and evolves EMR Specifications to meet the needs of community-based physician practices. OntarioMD offers products that connect to more patient information and services that assist physicians with becoming more skilled EMR users. Our products and services are available to all Ontario physicians using a certified EMR. Past participation in an OntarioMD program is not required.

Accelerate your EMR skills with the help of an OntarioMD Peer Leader!

OntarioMD's Peer Leaders are expert users of OntarioMD-certified EMRs and are available to help physician practices realize more clinical value from their EMRs.

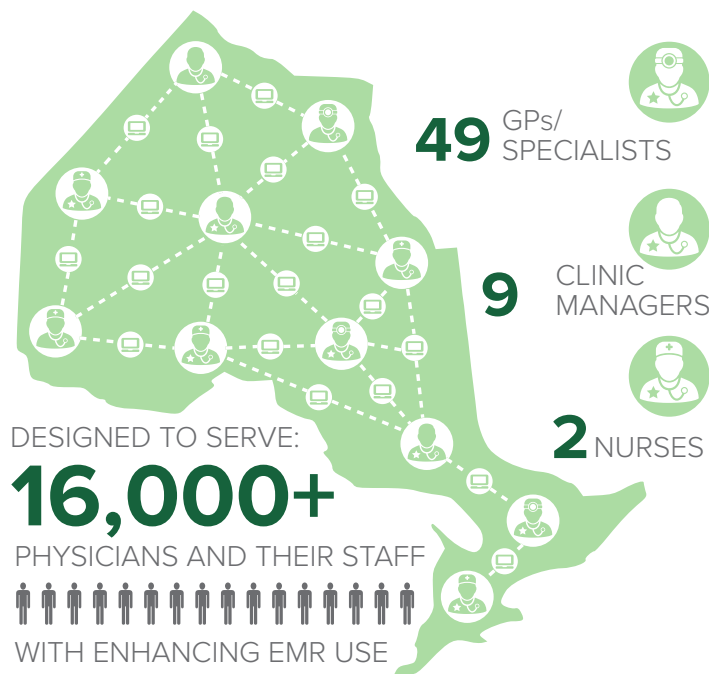

OntarioMD receives funding from the Ministry of Health and Long-Term Care.

OntarioMD Peer Leaders support physician practices anywhere in the province.

Peer Leaders, a network of over 60 physicians, nurses and clinic managers, understand the diversity of needs and challenges faced by busy community practices.

They offer consulting services to practices that can lead to more efficient EMR use and workflow, optimization of existing EMR functions and access to additional ones, improved clinical decision support, and much more.

Peer Leaders are proficient EMR users and bring their practice experience to support the enhanced use of EMRs. Community physicians can leverage Peer Leader experience and analysis of their practice to advance the use of data to improve how care can be delivered to patients.

Peer Leaders are part of a suite of resources available through OntarioMD, which also includes the EMR Practice Enhancement Program (EPEP) - a provincial service that offers a current analysis of EMR use and an improvement plan based on individual practice priorities.

Thousands of physician practices have already benefited from Peer Leaders' mentoring and guidance.

"The OntarioMD Physician Peer Leader I worked with gave me good advice around workflow, billing and tracking. She also invited me and my staff to her office to see her workflow, and her staff members gave us further advice." - **Dr. Richard Chen**, Family Physician

"Thank you so much for spending time with us and answering all our questions. Thank you also for sharing with us your experience during your migration. It was all very helpful information and we really appreciate it."
- **Grace Mancenido**, EMR Project Coordinator & Systems Specialist, LMC Diabetes & Endocrinology

**Start getting more clinical value from your EMR.
